2010 INTERNATIONAL ICE HOCKEY FEDERATION WORLD MEN'S CHAMPIONSHIP

Tournament Information

IHF TOURNAMENT FORMAT

The 74th International Ice Hockey Federation World Men's Championship features sixteen teams divided into four groups.

Group A: Russia, Belarus, Slovakia, Kazakhstan

Group B: Canada, Switzerland, Latvia, Italy

Group C: Sweden, Czech Republic, Norway, France

Group D: Finland, United States, Germany, Denmark

Each team will play three games within its group, with the top three teams from each group advancing to the Qualification Round and the last place team moving on to the Relegation Round.

Qualification Round

The twelve teams that qualify for the Qualification Round will be split into two groups, with each team playing three more games against teams not in its original group. After combining records from both the preliminary and qualification rounds, the top four teams from each group will advance to the quarterfinal round. The last two teams in each group will be finished with World Championship play.

Relegation Round

The fourth-place team in each group after the preliminary round will play three additional games, with the bottom two teams relegated in next year's World Championship.

Quarterfinal Round

After the Qualification Round, the top four teams from each group will face off in the Quarterfinal Round. The four winners will advance to the semifinals, while the losing teams are eliminated from the World Championship.

Semifinal Round

The four advancing teams will face off in the Semifinal Round, with the two winning teams advancing to the gold-medal game and the two losing teams playing in the bronze-medal game.

Medal Games

The two winning teams from the semifinal round will face off in the gold-medal game, with the losing teams playing in the bronze-medal game.

Three-Point System for Preliminary Round

- Three points shall be awarded for the winning team at the conclusion of regulation.
- One point will be awarded to both teams at the conclusion of regulation if the game is tied.
- An additional point shall be awarded for the team winning the game in either the overtime period or the Game-Winning Shots Procedure.

Overtime Procedures

- If a preliminary-round game is tied after three periods, a five-minute four-on-four sudden-death overtime period shall be played immediately after an intermission of three minutes. The teams will defend the same goals as in the third period.
- If a playoff, quarterfinal, semifinal or bronze-medal game is tied after three periods, a 10-minute four-on-four sudden-death overtime period shall be played immediately after an intermission of three minutes. The teams will defend the same goals as in the third period.
- If the gold-medal game is tied after three periods, a 20-minute four-on-four sudden-death overtime will start immediately after a 15-minute intermission during which time the ice will be cleaned. The teams will change ends.
- If no goal is scored in the overtime period of any game, the Game-Winning Shots Procedure will apply.

Game-Winning Shots Procedure

- All shots will be held at one end of the ice surface. Three players from each team will take shots alternately until a decisive goal is scored. If the score is still tied after three shots by each team, the procedure will continue with a tiebreak sudden-death shootout by one player from each team. The teams may use the same player or new players for each shot in the tiebreak shootout until the outcome is decided.

USA Hockey, Inc., is the National Governing Body for the sport of ice hockey in the United States. Its mission is to promote the growth of hockey in America and provide the best possible experience for all participants by encouraging, developing, advancing and administering the sport.

USA Hockey's primary emphasis is on the support and development of grassroots hockey programs. In January 2009, the organization launched the American Development Model, which - for the first time ever - provides associations nationwide with a blueprint for optimal athlete development.

While youth hockey is a main focus, USA Hockey also has vibrant junior and adult hockey programs that provide opportunities for players of all ability levels. The organization also supports a growing disabled hockey program and maintains an inline hockey program to provide structure and support for its growth across the nation.

Beyond serving those who play the game at the amateur level, USA Hockey has certification programs for coaches and officials to ensure education standards are met that coincide with the level of play. Furthermore, a large focus is put on parent education with equipment needs, rules of the game and parental roles in youth sports among common topics.

Members of the organization are entitled to many benefits, including a subscription to *USA Hockey Magazine*, the most widely circulated hockey publication in the world; excess accident, general liability and catastrophic insurance coverage; access to USAHockey.com; and opportunities to participate in USA Hockey National Championships, as well as player development camps.

USA Hockey is the official representative to the United States Olympic Committee and the International Ice Hockey Federation. In this role, USA Hockey is responsible for organizing and training men's and women's teams for international tournaments, including the IIHF World Championships and the Olympic and Paralympic Winter Games. Closer to home, USA Hockey works closely with the National Hockey League and the National Collegiate Athletic Association on matters of mutual interest.

USA Hockey is divided into 12 geographical districts throughout the United States. Each district has a registrar to register teams; a referee-in-chief to register officials and organize clinics; a coach-in-chief to administer education program for coaches; a risk manager to oversee liability and safety programs; and a skill development program administrator to facilitate learn-to-play programs for youth players and their parents.

USA HOCKEY'S **National Team Development Program**

Founded: **1996** | Location: **Ann Arbor, Mich.**

Website: **usahockey.com/usantdp**

NHL Draft Impact: **166 players drafted including 33 first-round picks;**

Three players were selected first overall: Patrick Kane (Chicago, 2007), Erik Johnson (St. Louis, 2006) and Rick DiPietro (NY Islanders, 2000).

In 1996, USA Hockey launched a revolutionary new initiative called the National Team Development Program, based in Ann Arbor, Mich. In its 13th season of play in 2009-10, the goal of this full-time development program is to prepare student-athletes under the age of 18 for participation on U.S. National Teams and success in their future hockey careers. Its efforts focus not only on high-caliber participation on the ice, but creating well-rounded individuals off the ice.

The program is composed of two squads - the U.S. National Under-18 and Under-17 Teams. The Under-17 Team competes in the United States Hockey League and also participates in three international events annually. The U.S. National Under-18 Team's schedule includes games against NCAA Division I and III opponents, contests vs. USHL teams, as well as competition in three international tournaments.

The Ann Arbor Ice Cube, a first-class facility consisting of three ice sheets, locker rooms, offices, a training area and weight room is home to the NTDP. Unlike other competitive athletic teams, the success of the NTDP is not gauged on wins and losses. Instead, the focus is on the development of skills and acquiring experience against older competitors.

"The National Team Development Program provides a tremendous opportunity for the elite young players in our country," said Ron DeGregorio, president of USA Hockey. "We've developed many programs over the years at USA Hockey and the NTDP is among our very best initiatives."

WHAT THE PROGRAM HAS MEANT

In evaluating how the NTDP has impacted hockey in the United States, consider:

- The U.S. has won the gold medal at the IIHF World Men's Under-18 Championship in 2002, 2005, 2006, 2009 and 2010, with each team comprised primarily of NTDP players.
- The U.S., with a team comprised largely of NTDP players, captured its first-ever gold medal at the IIHF World Junior Championship in 2004.
- In 2008-09, more than 45 NTDP alumni were playing in the National Hockey League.

2010 U.S. Olympian and NTDP alum

BRIAN

Burke

General Manager

Brian Burke is serving as general manager of the U.S. Men's National Team for the third time in 2010.

Burke, who most recently served as general manager of the silver medal-winning 2010 U.S. Olympic Men's Ice Hockey Team, previously served as general manager of the U.S. Men's National

Team at the 2009 International Ice Hockey Federation World Men's Championship in Bern and Zurich-Kloten, Switzerland. He was also the general manager for the U.S. Men's National Team at the 1993 IIHF World Men's Championship in Munich and Dortmund, Germany.

Burke's full-time job is as the president and general manager of the National Hockey League's Toronto Maple Leafs, a position he accepted on Nov. 29, 2008, after previously serving as the executive vice president and general manager of the NHL's Anaheim Ducks for three seasons (2005-08). While in Anaheim, Burke led the Ducks to their first-ever Stanley Cup in 2007, the first for a team from California. Additionally, the Ducks made the Stanley Cup Playoffs in each of Burke's seasons with the organization.

Burke went to Anaheim after a six-year stint (1998-2004) as president and general manager of the Vancouver Canucks, revitalizing the team and community en route to consecutive 100+ point seasons and a Northwest Division title in 2003-04.

Under his leadership, the team increased its point total four consecutive years from 1999-2003. Over his last four seasons with the team, Burke engineered four consecutive seasons of at least 90 points. For his efforts, Burke was named by *The Sporting News* as NHL Executive of the Year in 2001.

Prior to joining the Canucks organization, Burke worked in the NHL front office as senior vice president and director of hockey operations from 1993-98. While at the league office, he served as the chief disciplinarian, ruling on violations for on-ice player conduct. He worked closely with Commissioner Gary Bettman on league direction, including collective bargaining matters.

The Edina, Minn., native was honored with the Lester Patrick Award in 2008 for outstanding service to hockey in the United States. Burke's immediate family includes his wife, Jennifer, and six children, Katie, Patrick, Brendan, Molly, Mairin and Gracie.

After beginning his volunteer career with the National Governing Body in the mid-1970s, Rossi was elected to the USA Hockey Board of Directors in 1983 and served as a director from the Central District until 1988. In 1989, he was elected to the USA Hockey Executive Committee, serving as secretary from 1989-95. In 1995, Rossi transitioned to the role of USA Hockey treasurer, a position he held until June 2003.

In his role as both secretary and treasurer, Rossi helped guide the formation and growth of The USA Hockey Foundation, a charitable and educational non-profit corporation that provides long-range financial support for USA Hockey and promotes the growth of hockey in the United States.

In June of 2003, Rossi was elected to his current post as USA Hockey vice president and international council chair. In his role, Rossi works closely with the organization's National and Olympic Team programs, as well as the International Ice Hockey Federation during a host of global competitions held throughout the year. He was elected to the IIHF Council in May of 2008.

Rossi also serves as president for RMK Management Corporation and Moran & Company.

He served in the capacity for 17 years before taking his current position as chairman of the board. In recognition of his 45th year of service to USA Hockey, the organization dedicated its national headquarters as The Walter L. Bush, Jr. Center in June 1999.

Bush retired as a member of the International Ice Hockey Federation Council in May 2008 after a 23-year stint, the last 14 years as a vice president of the organization. He served on numerous committees within the IIHF, including as chairman of the IIHF Women's Ice Hockey Committee, the IIHF InLine Hockey Committee and the IIHF Hall of Fame Selection Committee.

Bush is a member of the Board of Directors of the USOC and is secretary of the U.S. Olympic Foundation. During the 2002 Olympic Winter Games, Bush received the Olympic Order from the International Olympic Committee, the highest honor in the Olympic movement.

Bush was elected to the Hockey Hall of Fame in 2000. He received the NHL's Lester Patrick Award in 1973 in recognition of his outstanding service to ice hockey in the United States. He was enshrined in the United States Hockey Hall of Fame in 1980, and in 1989, was elected to the Minnesota Sports Hall of Fame. I AM
POTENTIAL.

"PEOPLE COMPARE ME WITH MY OLDER BROTHER. HE SKATES FASTER, BUT WHEN IT COMES TO ART I DRAW CIRCLES AROUND HIM. SO REALLY THERE'S NO COMPARISON."

Let's unlock each kid's boundless potential, on the ice and off. The American Development Model (ADM) provides age-appropriate guidelines and curriculum to hockey associations across America to help more kids play, love and excel at hockey. Learn more at admkids.com.
