IIHF TOURNAMENT FORMAT

Three-Point System for Preliminary Round

- Three points shall be awarded to the winning team at the conclusion of regulation.
- One point will be awarded to both teams at the conclusion of regulation if the game is tied.
- An additional point shall be awarded to the team winning the game in either the overtime period or the Game-Winning Shots procedure.

Overtime Procedures

- If a playoff, quarterfinal, semifinal or bronze-medal game is tied after three periods, a 10-minute four-on-four sudden-death overtime period shall be played immediately after an intermission of three minutes. The teams will defend the same goals as in the third period.
- If the gold-medal game is tied after three periods, a 20-minute four-on-four sudden-death overtime will start immediately after a 15-minute intermission during which time the ice will be cleaned. The teams will change ends.
- If no goal is scored in the overtime period of any game, the Game-Winning Shots procedure will apply.

Game-Winning Shots Procedure

- Shots will be taken at both ends of the ice surface. Three players from each team will take shots alternately until a decisive goal is scored. If the score is still tied after three shots by each team, the procedure will continue with a tiebreak sudden-death shootout by one player from each team. The teams may use the same player or new players for each shot in the tiebreak shootout, until the outcome is decided.

USA HOCKEY LEADERSHIP

HISTORY & RESULTS

USA Hockey, Inc., provides the foundation for the sport of ice hockey in America; helps young people become leaders, sometimes even Olympic heroes; and connects the game at every level while promoting a lifelong love of the sport.

USA Hockey's primary emphasis is on the support and development of grassroots hockey programs. In January 2009, the organization launched the American Development Model, which - for the first time ever - provides associations nationwide with a blueprint for optimal athlete development.

While youth hockey is a main focus, USA Hockey also has vibrant junior and adult hockey programs that provide opportunities for players of all ability levels. The organization also supports a growing disabled hockey program.

Beyond serving those who play the game at the amateur level, USA Hockey has certification programs for coaches and officials to ensure education standards are met that coincide with the level of play. In September 2011, USA Hockey became the first youth sports organization in the U.S. to provide its coaches with online, age-specific coaching education modules. Furthermore, a large focus is put on parent education with equipment needs, rules of the game and parental roles in youth sports among common topics.

Members of the organization are entitled to many benefits, including a subscription to *USA Hockey Magazine*, the most widely circulated hockey publication in the world; excess accident, general liability and catastrophic insurance coverage; access to USAHockey.com; and opportunities to participate in USA Hockey National Championships, as well as player development camps.

As the National Governing Body for the sport of ice hockey in the United States, USA Hockey is the official representative to the United States Olympic Committee and the International

Ice Hockey Federation. In this role, USA Hockey is responsible for organizing and training men's and women's teams for international tournaments, including the IIHF World Championships and the Olympic and Paralympic Winter Games. Closer to home, USA Hockey works closely with the National Hockey League and the National Collegiate Athletic Association on matters of mutual interest.

USA Hockey is divided into 12 geographical districts throughout the United States. Each district has a registrar to register teams; a referee-in-chief to register officials and organize clinics; a coach-in-chief to administer education programs for coaches; a risk manager to oversee liability and safety programs; and a skill development program administrator to facilitate learn-to-play programs for youth players and their parents.

THIS IS USA HOCKEY'S NATIONAL TEAM DEVELOPMENT PROGRAM

Founded: 1996 | **Location:** Ann Arbor, Mich.

Website: usahockey.com/usantdp

NHL Draft Impact: 198 players drafted including 41 first-round picks.

Three players were selected first overall: Patrick Kane (Chicago, 2007), Erik Johnson (St. Louis, 2006) and Rick DiPietro (NY Islanders, 2000).

In 1996, USA Hockey launched a revolutionary new initiative called the National Team Development Program, based in Ann Arbor, Mich. In its 15th season of play in 2011-12, the goal of this full-time development program is to prepare student-athletes under the age of 18 for participation on U.S. National Teams and success in their future hockey careers. Its efforts focus not only on high-caliber participation on the ice, but creating well-rounded individuals off the ice.

The program is composed of two squads - the U.S. National Under-18 and Under-17 Teams. The Under-17 Team competes in the United States Hockey League and also participates in three international events annually. The U.S. National Under-18 Team's schedule includes games against NCAA Division I and III opponents, contests against USHL teams, as well as competition in three international tournaments.

The Ann Arbor Ice Cube, a first-class facility consisting of three ice sheets, locker rooms, offices, a training area and weight room is home to the NTDP. Unlike other competitive athletic teams, the success of the NTDP is not gauged on wins and losses. Instead, the focus is on the development of skills and acquiring experience against older competitors.

"Playing for your country is one of the greatest things any athlete can do," said NHL superstar Ryan Kesler. "The NTDP's on- and off-ice programs built the foundation I needed to become the player I am today."

WHAT THE PROGRAM HAS MEANT

In evaluating how the NTDP has impacted hockey in the United States, consider:

- The U.S. has won the gold medal at the IIHF U18 Men's World Championship in 2002, 2005, 2006, 2009, 2010 and 2011, with each team comprised primarily of NTDP players.
- The U.S., with a team comprised largely of NTDP players, captured its first-ever gold medal at the IIHF World Junior Championship in 2004. In 2010, Team USA earned its second gold medal and followed that success with a bronze-medal finish in 2011, the first time in tournament history that the U.S. won consecutive medals.
- In 2010-11, more than 60 NTDP alumni played at least one game in the National Hockey League.

If hockey was only a game of speed, a **very long** single contour would enhance speed. But then it would be called speed skating.

If hockey was only a game of turns and pivots, a **very short** single contour would enhance agility. But then it would be called figure skating.

Hockey requires the best of both – and only Blademaster's Custom Radius Mark 6 can achieve this! (see diagrams on the right)

Blade runners simply are manufactured with a single contour. They cannot possibly match the demands of today's game, individual preferences or produce performance advantages. Contouring your skate blade enables the player to better realize their full skating potential.

USA HOCKEY LEADERSHIP

HISTORY & RESULTS

RON DeGREGORIO

PRESIDENT

Ron DeGregorio's contributions to the landscape of hockey in the United States are a major reason why USA Hockey is arguably the leading hockey federation in the world today.

Most recently, he helped fuel national support for passage of the Progressive Checking Skill Development Program, which will ultimately result in increased player skill development and a safer environment.

His ingenuity is evident throughout the organization, but perhaps nothing as visible as USA Hockey's National Team Development Program. A lightning rod for criticism in the U.S. when it was established in 1996, the NTDP has evolved into a revered program and has significantly influenced U.S. success in international competition.

DeGregorio, who continues to play hockey today, was elected president of USA Hockey on June 14, 2003.

His first appointment with USA Hockey came in 1973 when he was named registrar for the New England District. As registrar, DeGregorio oversaw the reorganization of the district into several smaller, more manageable affiliates. He was also the first registrar to appoint associate

registrars, which helped increase USA Hockey's efficiency and visibility at the local level.

DeGregorio was first elected to the USA Hockey Board of Directors in 1975 and was the organization's first vice president of youth hockey. In the 1980s, he served as treasurer of USA Hockey. In 1995, he was elected as a vice president and the international council chairperson, positions he held until being named president.

He has represented the USA at countless events during his tenure with USA Hockey. His first official role came as team leader of Team East at the 1979 United States Olympic Festival, from which the 1980 "Miracle On Ice" U.S. Olympic Ice Hockey Team was chosen.

DeGregorio also served as team leader for the 1994 U.S. Olympic Ice Hockey Team that competed in Lillehammer, Norway. DAVE OGRAN

EXECUTIVE DIRECTOR

It would be hard to find a more accomplished executive in the Olympic family than Dave Ogrian.

A Connecticut native, Ogrian returned to USA Hockey as executive director on Aug. 1, 2005, after previously holding the same position from 1993-99. Ogrian began his career in the sports industry with the organization (then the Amateur Hockey Association of the United States) as its director of public relations in 1978.

Under his leadership since 2005, USA Hockey created a new department for membership development that has helped in the resurgence of growth in youth hockey in the U.S., including attracting more than 100,000 players in the eight-and-under age category for the first time in the organization's history in 2010-11; gained rights to host IIHF World Championships at all levels; began an annual nationwide celebration called Hockey Weekend Across America; focused efforts on raising the profile of the USA Hockey Foundation; and led efforts that resulted in USA Hockey taking responsibility for the selection process and induction event associated with the U.S. Hockey Hall of Fame.

Among his many accomplishments during his first term as executive director, Ogrian oversaw a significant increase in membership and revenue, and the

construction of the current national headquarters; helped create the National Team Development Program; was a driving force in establishing the Patty Kazmaier Memorial Award, presented annually to the top player in women's college ice hockey; and developed the concept of STAR (Serving the American Rinks) with U.S. Figure Skating.

Before returning to Colorado Springs, Ogrian served as executive director of USA Football from 2002-05. He was recruited by the National Football League and NFL Players' Association to build a new, independent, non-profit organization to support and promote the sport of amateur football at all levels.

Prior to joining USA Football, Ogrian served as president and CEO of the Colorado Springs Sports Corporation where he led the development and creation of the Colorado Springs Sports Hall of Fame and the Rocky Mountain State Games.

From 1999-2000, Ogrian worked for the United States Olympic Committee as deputy executive director of marketing. While there, he led the USOC team that, together with the Salt Lake organizing committee, generated almost \$200 million.

Previously, Ogrian served the USOC from 1990-93 as director of broadcasting. He was

responsible for creating the initial broadcast division and generated over \$12 million in revenue as well as unprecedented exposure for the national governing bodies of Olympic sports.

From 1980-88, Ogrian worked at ESPN in corporate communications and programming.

Following a successful eight years at ESPN, Ogrian joined the College Football Association as assistant executive director for television.

Ogrian received his Bachelor of Arts degree in English from the University of Connecticut (1974) and his master's degree in film from Boston University (1978).

Listed among *The Sporting News'* Top 100 Most Powerful People in Sports from 1993-99, Ogrian is currently among *The Hockey News'* Top 50 People of Power and Influence. He is a member of the U.S. Olympic Committee Board of Directors, the nominating committee for the U.S. Olympic Hall of Fame, the board of directors for the Colorado Springs World Arena, and served on the United States Olympic Committee CEO Search Committee in 2009.

Dave and his wife Maryellen have three grown children: son Matt, and daughters Tracy and Dana.
