RE: Housing Questionnaire

Congratulations and Welcome!

As housing liaisons for the National Team, we look forward to being in contact with you and your parents over the next few months as we work towards securing host families for each of you. The actual matching of players with host families is an on-going process from June up to about two weeks before you arrive. We understand that you and your parents will be anxious to find out who you will live with but we gratefully ask for your patience. Every effort is made to match players as early as possible so everyone involved can get to know each other before your arrival.

The primary goal we seek to accomplish is to find the most compatible match for every player as well as every host family and that often takes time. In the long run though, we think you will find that the benefits are worth the wait.

The first step in the process is for **you** to complete the enclosed questionnaires. It is extremely important that you take some time and give a lot of thought to your answers. The information that you provide on these questionnaires will be used to determine which host family is best for you. When you return your questionnaires, it is always helpful that you provide a family picture.

We look forward to making this part of the process as easy and stress-free as possible for you and your family and look forward to working with you.
